JUMBO EXTENSION PLANS TO RESUME WORK IN ALL DEPARTMENTS MONDAY

(Special Bonanza Correspondence.)

GOLDFIELD, Nevada, March 6.—Charles S. Sprague, managing director of the Jumbo Extension Mining company, has taken active steps to safeguard the property in his custody by retaining the Booth apex by retaining J. R. Finley and Horace V. Winchell, two of the most eminent mine geologists known on the continent. Their opinions and views will serve as a guidance for W. H. Dickson, of Salt Lake City, and S. S. Downer, of Reno, well known apex attorneys who have gained wide distinction in handling suits involving extra lateral rights. These four gentlemen form an almost invincible quartette. Isaac Untermeyer, the great corporation counsel of New York, will also act in an advisory capacity.

J. R. Finley will be recognized as

former general manager of the Goldfield Consolidated Mines company, under whose direction that property enjoyed its greatest period of prosperity. Mr. Finley also acquired considerable fame when he reported on the iron ore reserves of the Mesaba range for the tax commission of Michigan. Mr. Finley maintains an office in New York and is recognized as the most reliable and the highest priced expert in the country. His familiarity with geological conditions in Goldfield will render his services of inestimable value.

Horace V. Winchell stands today as a giant among apex experts. His attainments in this line have attracted the attention of both houses of congress on numerous occasions when he appeared before committees advocating an amendment to the mining

FOREIGN DIPLOMATIC CORPS ARE IN PREPARATION TO LEAVE MEXICO CITY

(By Associated Press.)

WASHINGTON, March 6.—The foreign diplomatic corps in Mexico City have decided to leave in a body. Dispatches telling of this decision have been received by European diplomats, and forwarded to their home governments. The Mexican situation is admitted to be more critical than at any time since Huerta precipitated the landing of United States troops at Vera Cruz. Secretary Bryan has heard nothing further from the latest representations to General Carranza against General Obregon's decrees of his threat to leave the capital unprotected, with possibility of looting and killing. Without diplomatic representatives, Mexico City would be virtually severed from the world. It is feared that the foreigners will be at the mercy of factions. Senator Smith of Arizona called to see the president. "We should take charge or abandon the Monroe doctrine," said Smith. The Carranza agent gave reassurances that foreigners will be safe.

BALKAN STATES PREPARING TO CALL THEIR RECRUITS TO THE COLORS AS ATTACK ON DARDANELLES CONTINUES

(By Associated Press.)

LONDON, March 6.—Indications are that the bombardment of the Dardanelles might bring to a decision the attitude of the Balkan states concerning the war. The possibility of the capture of Constantinople already has exercised a noticeable influence over these nations. Bulgaria is reported to have mobilized secretly three divisions, about 36,000 men. The Roumania chamber of deputies is considering the granting of a credit of \$40,000,000 to the government for military purposes and calling to the colors the 1915 recruits. Greece is awaiting eagerly a decision of the crown council concerning intervention in the war. An Athens dispatch says that the popular feeling is in favor of such a step.

PARIS, March 6.—Following is an official bulletin: German losses since the beginning of hostilities in killed, wounded, sick and prisoners are three million men. This is based on the known casualties of ten German regiments. Advance of the allies in Champagne is continuing.

LIGHTED CANDLE IGNITES CURTAIN

FIRE DOES CONSIDERABLE DAMAGE TO FORD COTTAGE LAST EVENING

The Frank Carr cottage at the rear of the high school building was badly damaged by fire last evening at 8:40. The house, which consists of five rooms and was one of the first houses built in Tonopah, is occupied by Joe Ford and family. Mrs. Ford gave one of the children a lighted candle and sent it to get night dresses for the other little tots, as it was disturbing time for them. The child held the candle too close to a curtain, which ignited and the flames spread rapidly.

A still alarm was sent in by Mrs. Trimble, a neighbor, and the paid department quickly responded. A chemical stream was used at first, but the fire had made such headway that a water line had also to be used. The damage done will amount to about \$200. The property was insured.

DISTRICT ATTORNEY ACTS IN VERY PECULIAR MANNER

Mrs. Joseph Fleming, who with Mrs. Jan. Rogon, was put under bonds of \$50 each yesterday afternoon by Justice Dunseath to keep the peace, has so far declined to take the action directed by the court. Her husband, it seems, was the plaintiff in the action which got the two women into court. It seems that the district attorney's office has acted peculiarly in this matter in not opposing the action of Justice Dunseath in placing the plaintiff under bonds. It is said that there is a political difference existing between the plaintiff and the district attorney.

JURY FINDS DEATH RESULT OF ACCIDENT

The jury called by Coroner Dunseath to inquire into the cause of the death of A. G. Nolte found that he was aged 28 years and a native of the United States and that he came to his death on the 5th day of March, 1915, by an accident on the 800-foot level of the Sandgrass shaft of the Tonopah Mining company, by being struck by a counterbalance.

GARDNERVILLEAINS OUTCLASS TONOPAH

ANOTHER GAME WILL BE PLAYED TONIGHT WITH CHAMPIONS OF NEVADA

In the game of basketball played at the high school gym last night between the high school teams of Gardnerville and Tonopah, the local boys were entirely eclipsed. The boys from up state showed by their team work that they were in far better condition than Tonopah, who nevertheless were in the game from start to finish. Owing to a slight misfortune, Butler, Tonopah's star, was laid up and forced to retire from the game. His place was filled for the remaining time by J. Feutsch. The score was 28 to 8 in Gardnerville's favor. The Gardnerville boys are a fine bunch of sports and played a clean, fast game at all times. This morning, through the courtesy of Mr. Fitzgerald, they were given a trip through the Belmont mine. The score for the preliminary was 8 to 7 in favor of the freshmen.

Tonight two games will be staged; one between Tonopah All Stars and Millers Meteors and another contest between the local high school and Gardnerville. A dance will follow the game.

IMPORTANT CONFERENCE IS BEING HELD TODAY

A conference is being held late this afternoon between Chas. S. Sprague of Goldfield, Judge W. H. Dickson of Salt Lake City and Judge S. S. Downer of Reno. This conference is preparatory to taking action in the suit brought by the Booth Reorganized Mining company against the Jumbo Extension. The conference was held so late in the afternoon that a report could not be obtained for this issue.

FULL CONFESSION IS MADE BY SELLS

SAYS HE MURDERED EX-BANKER AND WIFE FOR THEIR MONEY

(By Associated Press.)

LOS ANGELES, March 6.—Details of the murder of Jacob Vogel, an ex-banker and his wife, at Fruitvale, are revealed in the confession of Alfred Sells, according to the police. Sells said he choked the life out of Mrs. Vogel. An Oakland painter, whose name is not given, killed Vogel, said Sells. It is asserted that M. E. Cox, the nurse, had nothing to do with the murder, he said, except inadvertently to inform Sells that the Vogels kept \$4,000 in their home. This statement followed a telegram to the district attorney of Alameda county not to send Sells to the gallows. They searched the house, but found only \$25. Sells' statement is the climax of a series of confessions begun by Charles Sligh, who admitted the robbery of a cafe, also the Southern Pacific Lark train at Burbank in September.

I. W. W.'S ARE FLOATED OUT BY RENO OFFICERS

In reply to a wire from Chief Evans, Chief Hillhouse of Reno says: "We arrested seven hobos, all young men. They were camped on the river bank and suspected of killing a calf belonging to a rancher. Three of the seven carried I. W. W. pins. Several of them said they were bound for Tonopah and the others said they were going to Winnemucca. All were floated out of town."

Mr. Uren will go to the coast for a short visit to his wife, who is recuperating in a hospital. She will return to Tonopah with him.

PRISONERS EXCHANGED BY WARRING NATIONS

NEARLY EACH OF DISABLED HAD AN ARM OR LEG MISSING

(By Associated Press.)

LONDON, March 6.—The first consignment of disabled German prisoners to be exchanged for English wounded included two officers and 82 men. To spare the feelings of the broken warriors, the arrangements for their departure from England were kept secret, and only a handful of spectators saw them as they left the Victoria station, London, or as they embarked a few hours later from Folkestone for Flushing, Holland.

The men were gathered from all parts of England. Most of them had an arm or leg missing. Every man had to be carried on a stretcher, and British surgeons had carefully certified that none of them would ever be able to fight again.

From London to Folkestone they traveled in a special Red Cross ambulance train, which was strictly guarded and had every blind drawn. The patients were in charge of five doctors and 25 Red Cross orderlies and nurses under command of Lord Onslow.
